CHIOS MASTIC

THE HEALING BALSAM

NATURAL

- Mastic is a unique balsam produced only on the Chios island.
- Balsam that flows like tears to protect the wounds of mastic tree.

PROVEN

- Mastic has been used since ancient times as a medicine for healing wounds, stomach upset, and diarrhea.
- Currently, mastic is being studied for its antibacterial(including anti helicobacter pylori), anti-inflammatory and antioxidant effects.

PDO

- It is produced only on the Greek island of Chios, so the EU has designated it as a PDO product and protects its name of origin.

HERITAGE

- The cultivation and harvesting methods of mastic, which have been passed down for thousands of years, are a UNESCO-designated Cultural Heritage of Humanity.

APPLICATION OF MASTIC

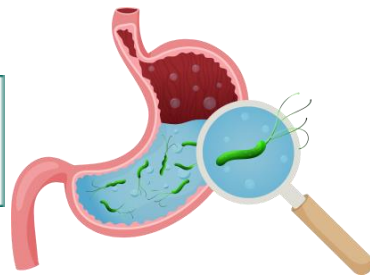

01

Oral health care

Our product has a 99.9% inhibitory effect on periodontal bacteria (gingivitis), caries bacteria (mutans), and Helicobacter pylori. It also has excellent anti-inflammatory properties, which help relieve pain.

02

Helicobacter pylori inhibition, improve stomach health

Mastic is recognized in Korea as a raw material that helps with stomach health. In fact, our product has a 99.9% inhibitory effect on Helicobacter pylori, the causative agent of stomach cancer.

03

Skin and scalp care

Mastic has been used as a medicine for healing wounds since ancient times. Even today, the skin regeneration effects of our mastic products have already been proven, and its inhibitory effect on acne-causing P. acnes has also been proven.

3. PATENTS

3. PATENTS WITH INGREDIENTS
