Global ODM·OEM Specialist in Water Purifiers and Hot & Cold Water Dispensers

ODM Original Development
& Design Manufacturing

OEM Original Equipment
Manufacturing

OVIO Co., Ltd. is a global ODM and OEM specialist focused on the research, development, and manufacturing of drinking-water products, with core expertise in water purifiers and hot & cold water dispensers.

Backed by continuous R&D investment and market-specific customization strategies, we deliver solutions optimized to customer requirements and work closely with our partners to achieve sustainable, results-driven growth together.

28 Years of Proven ODM/OEM Expertise Built on a Value-Driven Philosophy

OVIO's value-driven philosophy emphasizes long-term partnership, quality consistency, and sustainable growth—principles that have shaped our ODM/OEM expertise for over 28 years.

A Globally Proven ODM/OEM Partner

Trusted by 100+ Customers Across 50+ Countries

Through long-term ODM/OEM partnerships with over 100 customers across more than 50 countries, OVIO has established a strong, globally proven track record.

By collaborating with leading global enterprises and continuously developing in-house products, we deliver reliable, market-validated solutions tailored to diverse regional requirements.

- 20% market share in Japan (Water purifiers & hot and cold water dispensers)
- 2025: Developed 3 in-house models (Ice water purifier, under-sink purifier, manual-fill purifier)
- 2024–Present: Supplied 5 OEM water purifier models for Coway (Korean domestic market)
- 2024: Developed 9 in-house models (Water purifiers & hot and cold water dispensers)
- 2022–Present: Registered ODM partner for Coway (Japan market water purifiers)
- 2020–Present: Registered JDM partner for Samsung – Co-development of BESPOKE Water Purifiers
- 2015: Entered the North American market

45+ Product Developments, 55+ Patents Worldwide

Based on extensive development experience and a strong patent-backed technology base, OVIO delivers technologically competitive products tailored to each partner's market, application, and brand strategy.

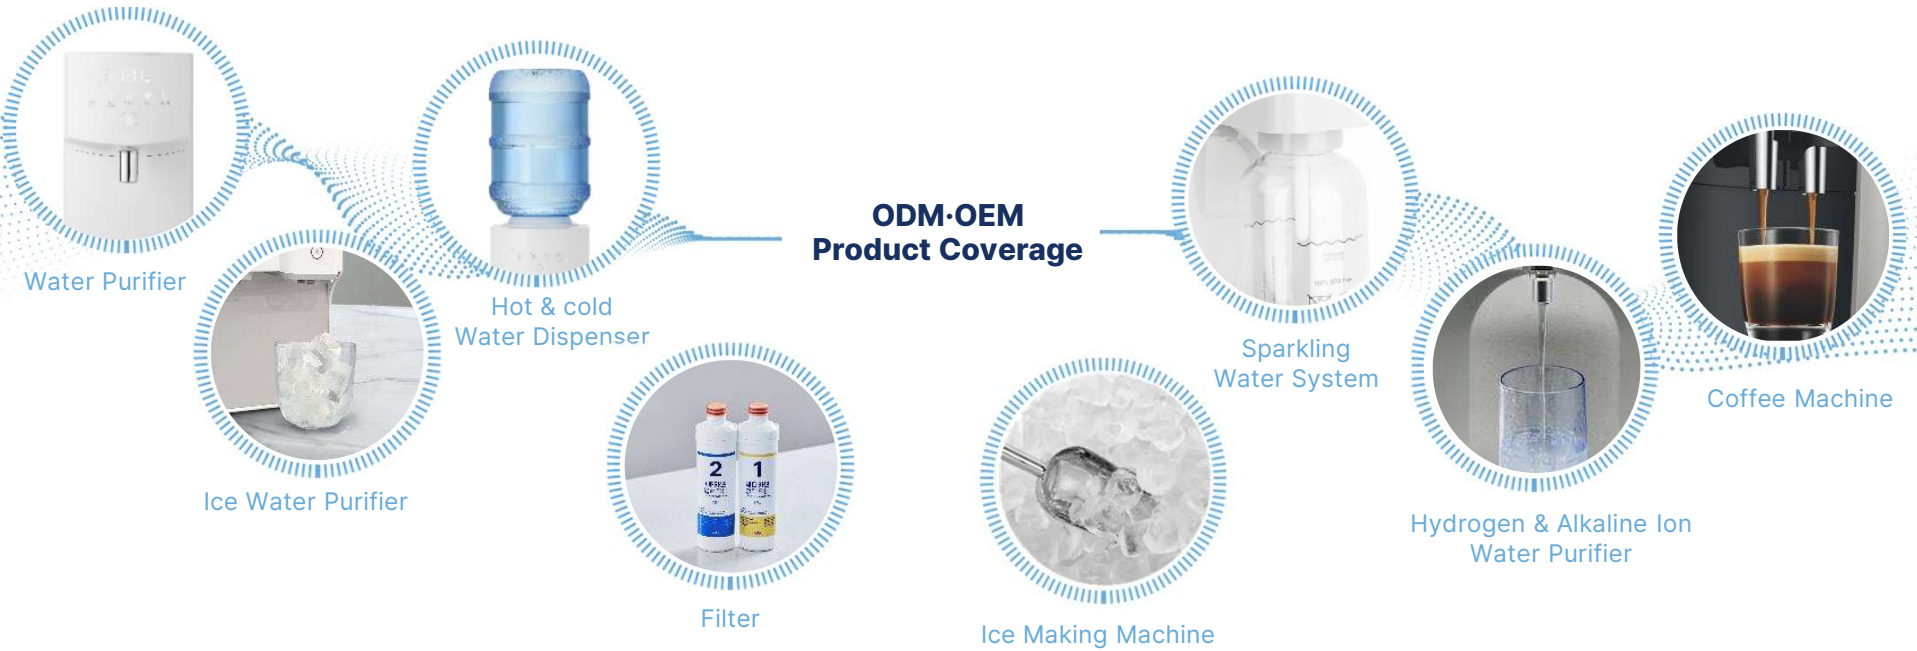

This capability supports the development of differentiated, high-value solutions for long-term OEM and ODM partnerships.

100+ products,
including derivative models

100+ Products Developed Across the Drinking-Water Category

With extensive experience in the R&D and manufacturing of over 100 products, OVIO delivers customized ODM/OEM solutions that reflect diverse market conditions and brand strategies.

Internationally Compliant Quality Assurance

Optimized for Each Market

OVIO operates a global quality assurance system compliant with international standards, including ISO 9001 and ISO 14001 certifications.

Our integrated quality and management systems enable stable compliance with regional regulations and certifications, helping partners reduce regulatory burden and accelerate time-to-market across global regions.

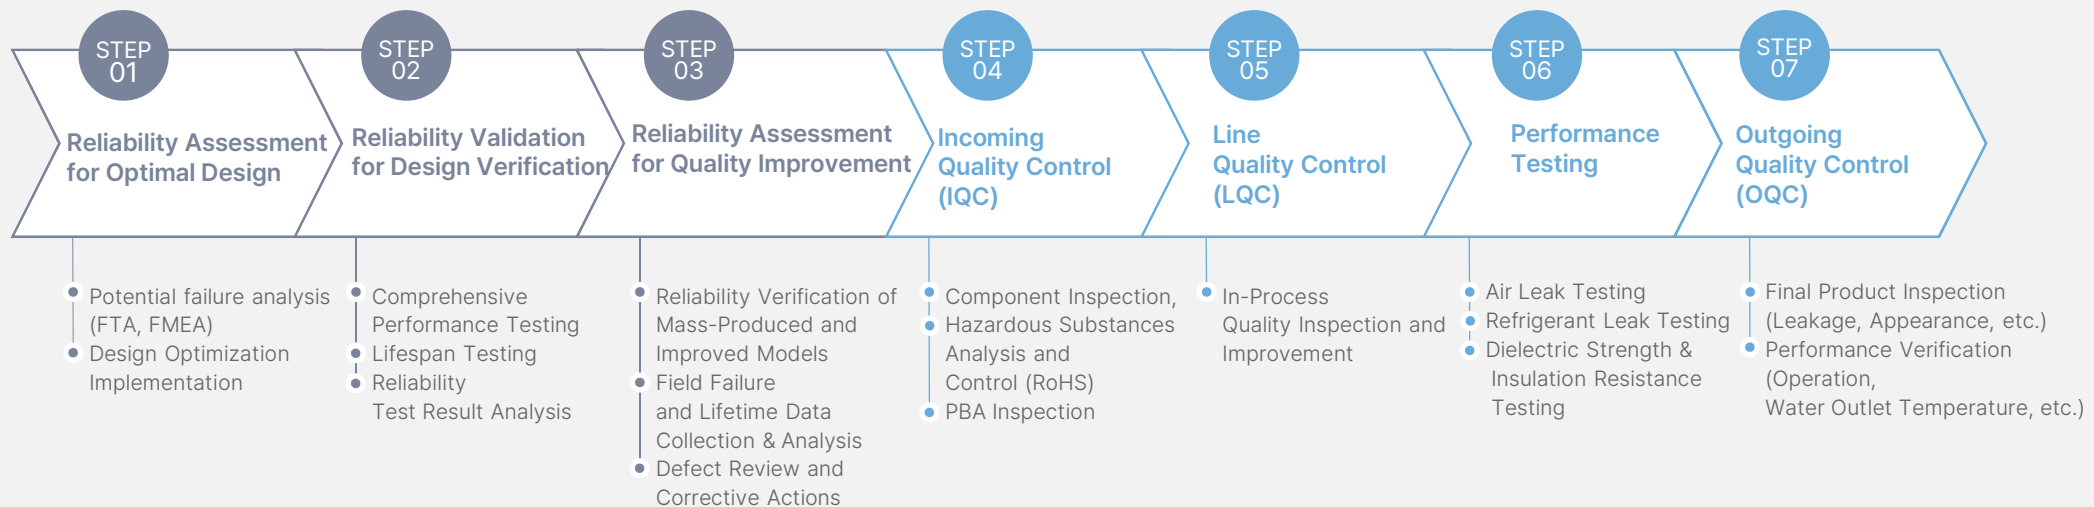

Comprehensive Reliability Testing and Rigorous Quality Control

30+ professional testing devices

50+ performance, durability, and safety inspection items

From design validation to mass production and shipment, every stage is managed under consistent, high-quality standards, minimizing post-launch quality risks and ensuring long-term supply stability.

Advanced Smart Factory

for High-Efficiency, High-Precision Manufacturing

OVIO operates an advanced Smart Factory with four fully automated production lines.

This system enables stable, large-scale production while maintaining consistent quality with minimal variation, even under high-volume output conditions.

[Expansion of Ice-Related Product Line]

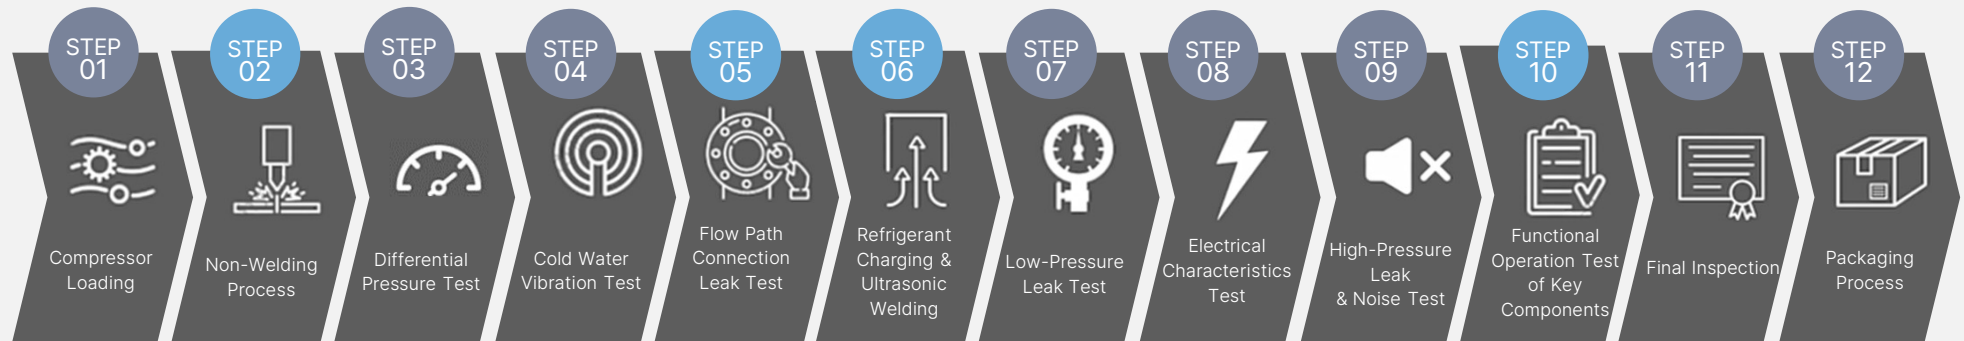

March 2026:
Dedicated production line for ice-related products, strengthening manufacturing capacity and supply stability for ice and ice-integrated systems.

We operate top-tier production capacity in Korea with a flexible manufacturing system tailored to customer needs.

- Full-line inspection automation and a product traceability management system enable real-time monitoring across all production stages.
- This infrastructure allows OVIO to respond quickly and reliably to demand fluctuations, without compromising quality or delivery stability.

[WATER DISPENSER MANUFACTURING LINE]

Industry-first Lock-Ring Process

Eco-friendly Natural Refrigerant R-600a

* Process flow based on Production Line 3

One-Stop Filter Development and Automated Production

OVIO operates a one-stop filter production system covering development through automated manufacturing, with a capacity of up to 150,000 units per month.

- Broad production capability from UF (Ultra Filtration) to RO (Reverse Osmosis) and composite filters
- The patented Quick-Change Filter system, reinforced by a Double Sealing-Ring structure, effectively prevents exposure and contamination.

Filter Production Line

This enables the development of hygienic, reliable, and easy-to-maintain filters with strong differentiation in both performance and usability.

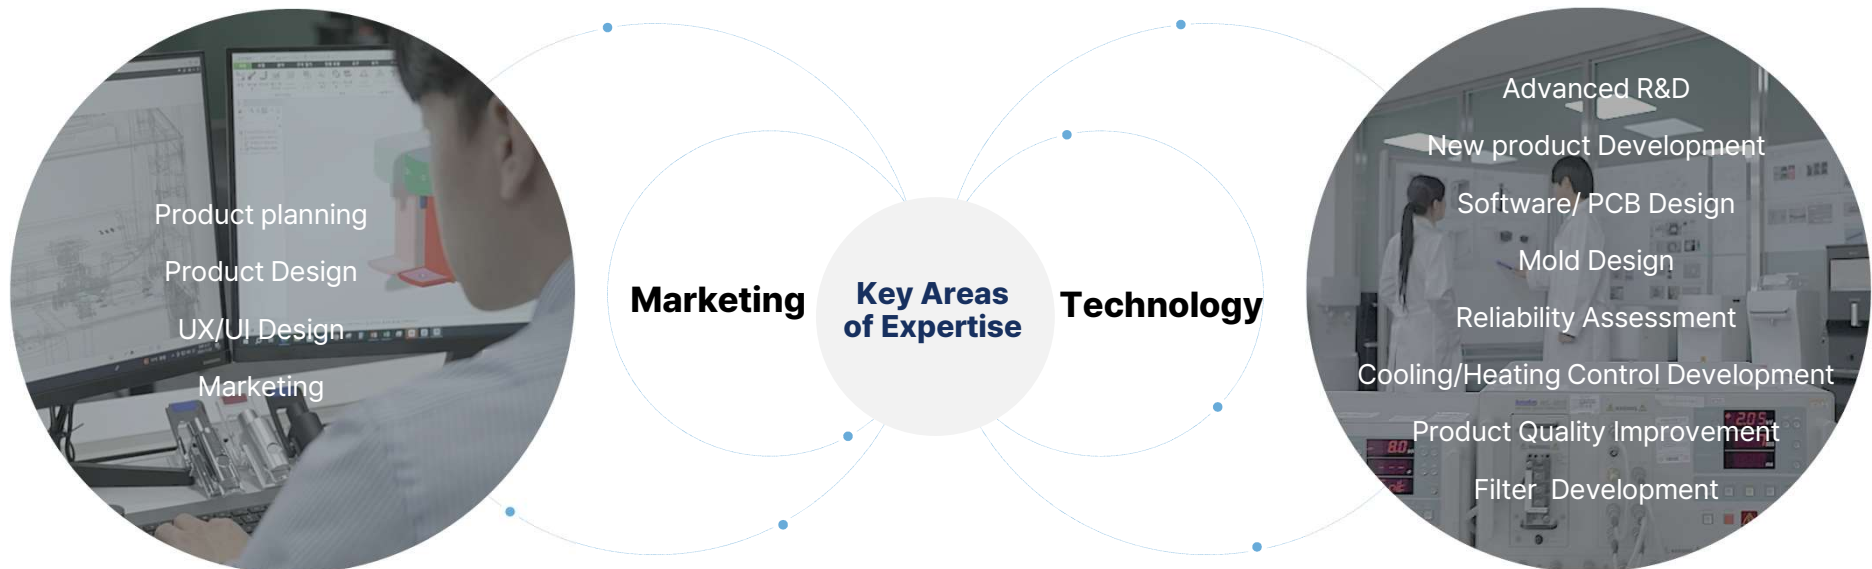

Expert Marketing and R&D Capabilities

Supporting Rapid Customized Development

R&D personnel
30%+ of total workforce

Annual R&D investment
3%+ of revenue

From market analysis and product planning to engineering, validation, and mass production, OVIO delivers end-to-end customized development aligned with each partner's market and brand strategy.

Partnership Process

Product Planning

[OVIO Marketing Group]
Customer-oriented product planning based on market trends and customer insights

Customer Consultation

Initial customer requirement analysis

Development Request

Feasibility review for product development
Dedicated project team assignment

Product Design & Development

[Affiliated Research Institute]
Design- and technology-driven product development in close collaboration with customers

Production Planning

[Ensuring component and product reliability
Optimization of production efficiency

Manufacturing

[Smart Factory]
Consistent quality control
Minimization of defects

Product Shipment

[On-time delivery in accordance with customer requirements

After-Sales Support

Early quality response process for new products
Rapid response to customer VOC
Certification maintenance and management

End-to-End ODM/OEM Execution from Concept to Mass Production

By seamlessly integrating product planning, R&D, design, manufacturing, and quality control, OVIO delivers competitive products precisely aligned with partner requirements.

Faster time-to-market, flawless quality, and uncompromised partner satisfaction.

**Our continued commitment to innovation
drives the delivery of reliable products and long-term value for our partners.**

A Global ODM/OEM Partner Powered by Korean Manufacturing Excellence

- **28 years of proven ODM/OEM expertise** in water purifiers and hot & cold water dispensers
- **Built on Korea's top-tier manufacturing capability**, recognized for precision, quality consistency, and process stability
- **End-to-end development & manufacturing system**, from concept to mass production
- **In-house product development experience**, strengthening engineering depth and practical product know-how
- **Fast time-to-market without compromising quality**, enabled by Smart Factory-driven operations
- **Market-fit product development** focused on eco-friendly technology, energy efficiency, premium design, and user-centric UI
- **Global certifications & compliance readiness**, including UL, CE, NSF, and RoHS
- **Trusted by global brands and long-term partners**, supporting scalable growth and co-development
